

Name:

Class:

**The task:****The code that my partner will need to use:****Checklist:**

Will you design your route with :

- Repeat loops?
- Traffic lights?
- Spiral?

Will your partner be able to use:

- Blockly and Python?
- Python only?

What code in Python will they need to use:

```
v.move_forwards()  
v.turn_left ()  
v.turn_right ()  
  
while  
if  
elif  
else  
  
for number in range ():  
def name ():  
print ()  
# Comment
```
